WORK EXPERIENCES

The University Of Texas At El Paso: The Vice President For Business Affairs Office
Webmaster/Front End Developer (January 2014 - Current)
- Redesigned and maintained websites under the Business Affairs division.
- Created fast and light HTML/LESS/JS framework to be used in multiple web projects (DNN Skins and Web Applications).
- Created and successfully implemented project management process for web projects.
- Collaborated and built good working relationships with coworkers in multiple departments of the VPBA Division

Bazaarvoice
User Interface Designer (July 2012 – August 2013)
- Designed and coded User Interfaces for social systems of retail, manufacturing, financial, travel, automotive and technology companies in the US and worldwide.
- Constantly collaborated successfully with developers, project managers and other designers.
- Worked directly with clients and agencies throughout the design implementation process.
- Implemented and innovated HTML/CSS/Less/Design framework.
- Designed multilingual interfaces for clients with sites in multiple countries.
- Worked remotely with team members in London, Costa Rica & Ukraine.
- Used version control system to checkout and promote code.
- Used agile development methodology.

Migration.mobi
UI/UX Designer (January 2012 – July 2012)
- Designed interfaces for Windows Phone and Windows 8.
- Created wireframes and prototypes for mobile applications.
- Exported visual assets for development team.
- Passed application design through Microsoft QA before it was published in the Windows Marketplace.

Themify.me
Forum Support / Theme Developer (April 2012 - August 2012)
- Performed HTML/CSS/JS/PHP customizations to premium WordPress themes.
- Provided theme implementation & customization support in forum.
- Integrated responsive functionality into themes.
- Collaborated successfully with remote team members in Canada and Argentina.

The University Of Texas At El Paso: Enterprise Computing
Web Designer/Front End Developer (March 2006 – December 2011)
- Designed & developed web applications for The University
- Created HTML/CSS/JS framework for applications, following best practices & design guidelines.
- Created wireframes and prototypes for web applications.
- Implemented The University branding to a variety of systems such as ASP.NET applications, WordPress, DNN, Touchnet, Atlassian Confluence, BlackBoard, Xythos, Microsoft Exchange & Microsoft SharePoint.
- Performed efficiently accessibility and cross-browser testing.
